

## 5225-XT-AIS-M

The Shakespeare 5225-XT-AIS-M is a mast mount version of our market leading Galaxy AIS antenna

The antenna is to Galaxy standard, with solid brass elements, stronger radome and high gloss finish. All this leads to Extended Performance where it is needed most.

The antenna has a SO-239 connector in the base for connection to any style cable that is suitable to the vessel mounting

- Stainless Steel Mast Mount based on the 5225-XT-AIS design
- Fully marinized for marine use
- Supplied 2 x Stainless Steel U Bolts for fixing
